- Airport Operations

THE AVIATION INDUSTRY TODAY

- Yesterday
 - Opportunities for flight hours in military abound (Vietnam, cold war, etc.)
 - Mandatory pilot retirement age of 62
 - Regional / feeder airline pilots make meager salaries (\$24,000 average starting salary)
- Today
 - Less military opportunities, pilots incented to stay in military longer
 - Mandatory pilot retirement age of 65
 - A severe shortage of qualified commercial pilots exists today (*Forbes article 2015*)
 - Regional / feeder pilots, have great starting salaries!! (salaries of \$40,000+ with starting bonuses)
- The future
 - By 2035, the U.S. alone will require at least 104,00 new pilots, and worldwide 617,000 new pilots are required

**THERE ARE NOT ENOUGH QUALIFIED FLIGHT SCHOOLS
NOR STUDENTS TO SATISFY THE INDUSTRY GROWTH.**

TCA WHO WE ARE

Third Coast Aviation LLC is dedicated to creating safe, competent, and proficient pilots within a community focused on comradery and continuing education.

- We provide
 - **flight training** at Texas Gulf Coast Regional Airport (KLBX) in Angleton, Texas
 - **flight services** throughout the Greater Houston – The Woodlands – Sugar Land area.
- Our integrated flight training program gives our pilots career advancement opportunities:
 - Light Sport Aircraft (LSA) pilot certificate**
 - Private Pilot License (PPL)**
 - IFR Rating**
 - Commercial Pilot License**
 - rusty pilot program**
