TO ALL INTERESTED PARTIES

PROPOSAL: The Federal Aviation Administration (FAA) received a request from the Hobby System Support Manager to decommission the Lake Jackson (LBX) Non-Directional Radio Beacon (NDB) located in Lake Jackson, Texas. The LBX NDB and its shelter were both damaged by Hurricane Harvey and having no available equipment replacements it has become necessary to look into other alternatives. These devices will be removed without replacement should the study show that decommissioning the LBX NDB would not be detrimental to the National Airspace System (NAS).

PROPONENT: Joel Cavazos
10101 Hillwood Pkwy
Fort Worth, Texas 76177

LOCATION: The physical components of these systems are located:

Latitude: 29°11'39.6"N
Longitude: 95°27'47.4"W

This circularization is intended to provide the public with the opportunity to review and comment to the effect this proposal may have on aeronautical activity. The issuance of this non-rule circular is to give notice of impending action within the NAS.

Comments regarding this proposal can be made electronically to:

9-NATL-CSA-Public-Notice-Airspace@faa.gov

Subject: Airspace Study 17-ASW-14NR Proposed Decommissioning of the LBX NDB

NOTE: Please include your name, physical address and email address.

Comments received prior to January 5, 2018, will be considered before final action is taken on this proposal.

The specialist assigned to this study is Michael McCully, mike.ctr.mccully@faa.gov, Contractor Support Specialist, Operations Support Group, ATO Central Service Center, at 817-222-5904.
